

HEALTHCARE INSIGHT EXPANDS EXECUTIVE TEAM

Seasoned Industry Executives to Head Fraud and Dental Services

SALT LAKE CITY, UTAH – August 4, 2008 – HealthCare Insight® (HCI), an ISO business and a provider of clinically validated fraud prevention and cost containment solutions for health care and dental claims payors, announced today an expanded executive team to keep pace with record growth and product development. Joel Portice has joined as vice president, Fraud Services, and Dr. Charles “Charlie” Stewart has joined as vice president, Dental Services.

As vice president, Fraud Services, Joel Portice brings more than 18 years of experience in health care software and analytics, with an extensive background in general management, business development and planning, systems implementation and integration, and sales and marketing. Before joining HCI, Portice was chief operating officer and cofounder of Enclarity, Inc., where he oversaw the product management, product marketing, and overall operations of the company. Portice also served as the vice president of Health Care and Insurance Analytics with Fair Isaac Corporation (NYSE: FIC); vice president of Enterprise Solutions at Ingenix, a wholly owned subsidiary of UnitedHealth Group (NYSE: UNH); and cofounded Integrity Plus Services (IPS), a Minnesota-based entity that served the health care and insurance market with cost-containment software and services. IPS was acquired by UnitedHealth Group in 1997 and integrated into the Ingenix subsidiary.

“Adding Joel to the HCI team is a crucial step in our efforts to continually improve our fraud prevention service,” said Dr. Barry Johnson, president of HCI. “Joel is a seasoned professional with the ideal background and expertise to help HCI continue to expand our leadership position in prospective health care fraud prevention.”

Portice also spent part of his career in government, serving as a legislative aide to United States Senator Tom Daschle. He graduated from the University of South Dakota with a bachelor of science degree and holds a master of arts degree from Hamline University. He is a member of the Board of Trustees of Hamline University of St. Paul, Minnesota, and the Board of Advisors for the Center for Health Care Management and Policy of the Paul Merage School of Business at the University of California, Irvine.

As vice president, Dental Services, Dr. Charlie Stewart brings numerous years of experience in many aspects of the dental field. He received his dental degree at the University of Louisville and completed a dental residency in Oral Medicine/Oral Pathology at Indiana University. He was grant-funded by the National Institutes of Health (NIH) to research temporomandibular joint disorders. Dr. Stewart has taught at two dental schools: the University of Louisville and Emory

University. He practiced dentistry in Kentucky and Georgia, performing general dentistry for medically compromised patients in a hospital environment.

Dr. Stewart left private practice and dental education after eleven years and entered the dental benefits industry, where he spent more than 18 years working with renowned dental insurers and consulting private health care companies.

“Charlie’s wealth of dental managed care experience and expertise are valuable and timely additions to our existing core competencies,” added Johnson.

About HealthCare Insight® (HCI)

HCI, an ISO business, provides private and public sector health care claims payors (including health plans, managed care organizations, insurance carriers, third-party administrators, Medicaid, and Medicare) with a comprehensive suite of clinically validated fraud and abuse surveillance services designed to maximize claims administration accuracy and minimize payment waste. Each of HCI’s customizable software as a service (SaaS) solutions rely on a unique prepayment process that combines proprietary software systems with detailed review by experienced clinicians (doctors, nurses, and dentists) and investigators on all suspect claims and billing patterns. HCI’s differentiated process enables payors to target fraud with greater efficiency by significantly increasing the quality of results returned. For more information and to learn about a no-cost Clinical Surveillance Analysis, please visit us online at www.hcinsight.com or call 1-877-819-5557.
